

CLARK

FULL

LINE

Highly **Manoeuvrable** + Easily **Serviceable** = Extremely **Dependable**

A **properly trained mechanic** can completely **customise** parameters to the **operator's preferences** such as acceleration rate, deceleration rate, maximum speed (separate forward and reverse).

NUMBERS DON'T LIE

98%

- Engineered for extreme environments, the C40 series is equipped with a **two-stage air filter system** that **removes 98% of incoming dust and debris** before it enters the filter media.

20 million

- The CLARK-designed drive axle incorporates spiral bevel and helical gear sets which provide quiet, dependable operation. This proven design has over 20 million field hours in heavy-duty applications.

100% AC SYSTEM

(on most electric models)

**FEWER PARTS & MINIMUM WEAR =
LESS DOWNTIME & COSTS = HIGHER ROI**

- Enclosed & brushless motors
- Thermal & stall protection
- Smart lift lock out
- Suitable for wet applications
- Motors are dual-powered reversing for tight turns

**ONE MOTOR FOR BOTH STEERING
AND HYDRAULICS**

- No brushes to change or commutator to turn... EVER

HEAVY-DUTY, HIGH TORQUE DRIVE MOTORS

- Produce twice the drawbar pull of some competitors
- Climb grades previously limited to IC trucks

INCREASED RUNTIME

- Optional battery compartment sizes available

Maximum Visibility + Minimum Fatigue = Ultimate Safety & Maximum Productivity

Nested upright rails provide positive rail interlock and a narrow profile to **maximise the vision window**. The overhead guard safety bars run parallel to the operator's line of sight resulting in a **clear, unobstructed view**.

OPERATOR COMPARTMENT

FULLY ADJUSTABLE CLARK SAFETY SEAT

- 2 cm vertical travel
- 20° backrest adjustment range
- 15 cm fore/aft adjustment
- Contoured for support
- Retractable seat belt
- Standard weight adjustment and full-suspension

HYDRAULIC CONTROL LEVERS

- Located and sized for ease of use

LOW COWL DESIGN

- Greatly increases visibility of forks and load

HIGH PIVOT STEER COLUMN

- Prevents interfering with operator's knees
- Adjusts to suit operator & provides easier entry/exit

RUGGED CONSTRUCTION

UPRIGHT AND CARRIAGE I-BEAM STYLE UPRIGHT

- Rails are designed to be 55% stronger than conventional flat-faced rails
- Better resistance to side-to-side deflection
- Promotes longer life and improved stability with elevated loads

HYDRAULIC CUSHIONING VALVES

- Silent staging reduces shock and vibration

SHIMMABLE, SEALED & CANTED LOAD ROLLERS

- Carriage has six load rollers & four side thrust rollers
- Maximises load distribution and reduces free play

STEERING AXLE

- Roller king-pin bearings are tapered and greasable to exclude dirt and extend service life
- Linkage pivot pins are double shear design to withstand impact without loosening or breaking

ONE-PIECE FRAME

- Heavy duty, welded and formed steel plate design helps protect from impact damage and extends the life of the truck
- Integral hydraulic pump provides cooling for hydraulics

Please note: All features listed do not necessarily appear on all models. Ask your authorised CLARK dealer for specifications and available options per model.

Dealer:

COST EFFECTIVE

Initial purchase price of your forklift is only **part** of your material handling costs. CLARK ensures that your long-term costs of ownership are kept to a **minimum**. **Proven components** [axles, uprights, cylinders and carriages] have all met rigid CLARK **engineering standards**. The benefit to you – CLARK trucks are designed to **operate longer** and are **more cost effective** than the competition.

KEEPING UPTIME TO A MAXIMUM

You want your lift truck **moving** material – not sitting in the shop. CLARK's experience with building and servicing the industry's oldest brand of lift trucks is combined with **the largest material handling distribution network** to ensure just that... your CLARK forklift trucks **keep working** shift after shift.

DEALER & FACTORY SUPPORT

And that same CLARK dealer network is **well equipped** to fill all your lift truck **related** needs including **financing, leasing and rental, factory authorised parts and service, up-to-date training and much more** – all while backed by the most extensive technical factory support in the industry.
